

Dear Customer,

Hereby we confirm that all products, the European Union Regulation (EC) 1907/2006 governing the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) and that it does not contain more than 0.1% by weight of the substances included in list of 'Substances of Very High Concern (SHVC)'

(Status: February 2026 / Link: <https://echa.europa.eu/de/candidate-list-table>)

On February 4th, 2026, the European Chemicals Agency (ECHA) added 2 new substances to the Candidate List of Substances of Very High Concern for eventual inclusion on the Annex XIV List of Substances subject to Authorisation. This brings the total number of Substances of Very High Concern (SVHC) on the Candidate List to 253.

As our products are "cable", they go under the section "article" under the REACH Article 3(3). The REACH obligations for our cables are based on the Article 7(1) and Article 7(2) criteria (registration and notification of articles). As under normal and anticipated conditions emittance of any substance from the article is not possible, according to Article 7(1) we are exempt from registration.

We requested and have been receiving from our suppliers the declarations showing that their products do not include the high risk substances (SVHC) and this process is still continuing. If there is a critical finding within this process, you shall be duly informed. (COMMISSION REGULATION (EU) 2021/2204)
